WARNING

If you get an error like

```
  File "C:\Users\shlok\Desktop\Python\hangman\try2.py", line 32, in <module>
    photos = [PhotoImage(file="C:\\hang0.png"),PhotoImage(file="C:\\hang1.png"),
  File "C:\Users\shlok\AppData\Local\Programs\Python\Python37\lib\tkinter\__init__.py", line 3545, in __init__
    Image.__init__(self, 'photo', name, cnf, master, **kw)
  File "C:\Users\shlok\AppData\Local\Programs\Python\Python37\lib\tkinter\__init__.py", line 3501, in __init__
    self.tk.call(('image', 'create', imgtype, name,) + options)
_tkinter.TclError: couldn't open "C:\hang0.png": no such file or directory
```

Download the images in the images the folder and change the path here:

```
photos = [PhotoImage(file="C:\\hang0.png"),PhotoImage(file="C:\\hang1.png"),
PhotoImage(file="C:\\hang1.png"),PhotoImage(file="C:\\hang3.png"),
PhotoImage(file="C:\\hang4.png"),PhotoImage(file="C:\\hang5.png"),
PhotoImage(file="C:\\hang6.png"),PhotoImage(file="C:\\hang7.png"),
PhotoImage(file="C:\\hang8.png"),PhotoImage(file="C:\\hang9.png"),
PhotoImage(file="C:\\hang10.png"),PhotoImage(file="C:\\hang11.png")]
```

And change the path to where u have downloded the images
